Investment Management

It is rare to come across people of Paul's caliber. When I moved to New York 8 years ago, he went out of his way to make my stay a great experience. We worked closely together for 3 years, often co-operating on projects as well as managing relationships. I got to know Paul as a no-nonsense, highly competent and hard working CFO. At the same time, he was always approachable and would take the time to both listen and give valuable advice. He is the best mentor I have ever had. From the day I met him, I have admired Paul's ability to handle difficult situations and to obtain the desired results. On several occasions Paul also proved that he will do what is best for the company, even at his own detriment. I miss working with Paul and can give him my highest recommendation. Any team would be lucky to have him onboard.[less](#)
